The recycling center in Jamestown is now closed down.

There are many people upset about the closing of the center.

Shanna Stecher said, “I think it’s a loss. Where can we take our items now? What are our kids here at the center going to do? They’ve done such a good job at recycling, and teaching us about it.”

Tom Kenna says, “I’m really upset about it. I think the city should take it over. It’s a no-brainer.”

Weather

Spring is coming around the corner but until then please remember to use caution while driving. Snow and ice are still around and even if the roads look safe, they may not be.

Black ice is really bad at this time of year. Also known as clear ice and it is unusually slick compared to other forms of roadway ice. It is extremely dangerous to drive on so if you can take an alternate route, do so.

<p>From the Editor</p> <p>By: Nicole B.</p> <p>Valentine's Day History!</p> <p>Want to know when Valentines Day was first celebrated? Who was St. Valentine and how did he become part of this ancient rite?</p> <p>There are a few different stories of how Valentine's Day came about. But this one was my favorite:</p> <p>According to one legend, Valentine actually sent the first 'valentine' greeting himself. While in prison, it is believed that Valentine fell in love with a young girl — who may have been his jailor's daughter — who visited him during his confinement. Before his death, it is alleged that he wrote her a letter, which he signed 'From your Valentine,' an expression that is still in use today.</p>	<p>play games and watch movies. The answer was Mookie Wilson. High School 4, Dan Kunzman and Eileen Pfarr got it right.</p> <p>In bottom of the 10th inning, in Game 6 of the 1986 World Series, Mookie Wilson stepped up to the plate and hit a slow grounder that, in any other game, would have been an easy out. But this was the World Series, and the pressure of the moment (or perhaps the Curse of the Bambino!) caused the slow grounder to roll right</p>
